3.1. The purchase of the Tokens:

In the event that the Buyer is no longer in possession of the Buyer's private keys or any device associated with the Buyer's account or is not able to provide the Buyer's login or identifying credentials, the Buyer may lose all of the Buyer's Tokens and/or access to the Buyer's account. The Company is under no obligation to recover any Tokens and the Buyer acknowledges, understands and agrees that all purchases of the Tokens are non-refundable and the Buyer will not receive any compensation for any Tokens purchased.

5.4. The Buyer is not a subject to any of the disqualifying events listed in Rule 506(d)(1) of Regulation D under the Securities Act of 1933 (a “Buyer Event”), and there is no proceeding or investigation pending or, to the knowledge of the Buyer, threatened by any governmental authority, that would reasonably be expected to become the basis for the Buyer Event. If the Buyer is a legal entity, the Buyer makes the same representations with respect to its directors (or equivalent) and senior executive officers, and its affiliates and their respective directors (or equivalent) and senior executive officers.

5.5. The Buyer has sufficient knowledge and experience in business and financial matters, including a sufficient understanding of blockchain or cryptographic tokens and other digital assets, smart contracts, storage mechanisms (such as digital or token wallets), blockchain-based software systems and blockchain technology, to be able to evaluate the risks and merits of the Buyer’s purchase of the Tokens, including but not limited to, the matters set forth in this Agreement, and is able to bear the risks thereof, including loss of all amounts paid, loss of the Tokens, and liability to the Company and others for its acts and omissions, including with limitation those constituting breach of this Agreement, negligence, fraud or willful misconduct. The Buyer has obtained sufficient information in order to make an informed decision to purchase the Tokens.

5.6. The funds, including any fiat, virtual currency or cryptocurrency, the Buyer uses to purchase the Tokens are not derived from or related to any unlawful activities, including but not limited to money laundering or terrorist financing, and the Buyer will not use the Tokens to finance, engage in, or otherwise support any unlawful activities.

5.7. All payments by the Buyer under this Agreement will be made only in the Buyer’s name, from a digital wallet or bank account not located in a country or territory that has been designated as a “non-cooperative country or territory” by the Financial Action Task Force, and is not a “foreign shell bank” within the meaning of the U.S. Bank Secrecy Act (31 U.S.C. § 5311 et seq.), as amended, and the regulations promulgated thereunder by the Financial Crimes Enforcement Network, as such regulations may be amended from time to time.

5.8. To the extent required by applicable law, the Buyer complies with all anti-money laundering and counter-terrorism financing requirements.

5.9. Neither the Buyer, nor any person having a direct or indirect beneficial interest in the Buyer or the Tokens being acquired by the Buyer, or any person for whom the Buyer is acting as agent or nominee in connection with the Tokens, is the subject of sanctions administered or enforced by any country or government (hereinafter “Sanctions”) or is organized or resident in a country or territory that is the subject of country-wide or territory-wide Sanctions.

5.10. The Buyer confirms and guarantees to the Company that he is not Chinese person and/or person of the USA in understanding the terminology of this Agreement. The Buyer also guarantees and confirms that he is not a citizen and/or resident (fiscal resident or other

resident) of territories where participation in the token sales is forbidden and citizen and/or resident (fiscal resident or other resident) from any UN sanctioned countries.

SECTION 6: DISCLAIMERS

6.1. The Buyer expressly acknowledges, understands and agrees that the Buyer is using the distribution contract and purchasing the Tokens at the Buyer's sole risk and that the distribution contract and the Tokens are each provided, used and acquired on an "AS IS" and on an "AS AVAILABLE" basis without representations, warranties, promises or guarantees whatsoever of any kind by the Company and the Buyer shall rely on its own examination and investigation thereof.

6.2. THE COMPANY DOES NOT MAKE AND EXPRESSLY DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, EXPRESS, IMPLIED OR STATUTORY.

6.3. WITH RESPECT TO THE DISTRIBUTION CONTRACT AND THE TOKENS, THE COMPANY SPECIFICALLY DOES NOT REPRESENT OR WARRANT AND EXPRESSLY DISCLAIMS ANY REPRESENTATION OR WARRANTY, EXPRESS, IMPLIED OR STATUTORY, INCLUDING WITHOUT LIMITATION, ANY REPRESENTATIONS OR WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY, USAGE, SUITABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE, OR AS TO THE WORKMANSHIP OR TECHNICAL CODING THEREOF, OR THE ABSENCE OF ANY DEFECTS THEREIN, WHETHER LATENT OR PATENT.

SECTION 7: RISKS

THE TOKENS MAY HAVE NO VALUE. THE BUYER MAY LOSE ALL AMOUNTS PAID. THE BUYER HAS CAREFULLY REVIEWED, ACKNOWLEDGES, UNDERSTANDS AND ASSUMES THE FOLLOWING RISKS, AS WELL AS ALL OTHER RISKS ASSOCIATED WITH THE TOKENS, ALL OF WHICH COULD RENDER THE TOKENS WORTHLESS OR OF LITTLE VALUE:

7.1. The Tokens have no rights, uses, purpose, attributes, functionalities or features, express or implied, outside the Etalonium Ecosystem. The Buyer understands and agrees that the Tokens are designed only to be utilized with the Etalonium Ecosystem.

7.2. There are no guarantees as to the price of the Tokens purchased by the Buyer and no guarantees that the price per the Token determined each period by the market will be equal to or higher in the subsequent periods of the distribution period.

7.3. The Company reserves the right to change the duration of the token distribution for any reason, including, without limitation, bugs in the distribution contract or the unavailability of the Website or other unforeseen procedural or security issues

7.4. Currently on the Ethereum blockchain, timing of block production is determined by proof of work so block production can occur at random times. For example, ETH contributed to the distribution contract in the final seconds of a distribution period may not get included for that period. The Buyer acknowledges and understands that the Ethereum blockchain may not include the Buyer's transaction at the time the Buyer expects and the Buyer may not receive the Tokens the same day the Buyer sends ETH.

7.5. The Ethereum blockchain is prone to periodic congestion during which transactions can be delayed or lost. Individuals may also intentionally spam the Ethereum network in an attempt to gain an advantage in purchasing cryptographic tokens. The Buyer acknowledges and understands that Ethereum block producers may not include the Buyer's transaction when the Buyer wants or the Buyer's transaction may not be included at all.

7.6. The Buyer may be unable to sell or otherwise transact in the Tokens at any time, or for the price the Buyer paid. By using the distribution contract or by purchasing the Tokens, the Buyer acknowledges, understands and agrees that: (a) the Tokens have no value away from the Etalonium Ecosystem; (b) there is no guarantee or representation of liquidity for the Tokens; (c) the Company is not and shall not be responsible for or liable for the market value of the Tokens, the transferability and/or liquidity of the Tokens and/or the availability of any market for the Tokens through third parties or otherwise.

7.7. The Tokens may be subject to expropriation and/or theft. Hackers or other malicious groups or organizations may attempt to interfere with the distribution contract or the Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, smurfing and spoofing. Furthermore, because the Ethereum platform rests on open source software and Tokens are based on open source software, there is the risk that Ethereum smart contracts may contain intentional or unintentional bugs or weaknesses that may negatively affect the Tokens or result in the loss of the Buyer's Tokens, the loss of the Buyer's ability to access or control the Buyer's Tokens or the loss of ETH in the Buyer's account. In the event of such a software bug or weakness, there may be no remedy and holders of the Tokens are not guaranteed any remedy, refund or compensation.

7.8. The Tokens purchased by the Buyer may be held by the Buyer in the Buyer's digital wallet or vault, which requires a private key, or a combination of private keys, for access. Accordingly, loss of requisite private key(s) associated with the Buyer's digital wallet or vault storing the Tokens will result in loss of such Tokens, access to the Buyer's Token balance and/or any initial balances in blockchains created by the third parties. Any third party that gains access to such private key(s), including by gaining access to login credentials of a hosted wallet or vault service the Buyer uses, may be able to misappropriate the Buyer's Tokens. The Company is not responsible for any such losses.

7.9. The Etalonium Ecosystem and all of the matters set forth in the White Paper are new and untested. The Etalonium Ecosystem might not be capable of completion, implementation or adoption. It is possible that the Etalonium Ecosystem will never be workable.

7.10. The Etalonium Ecosystem will rely, in whole or partly, on third parties to adopt and implement it and to continue to develop, supply, and otherwise support it. There is no assurance or guarantee that those third parties will complete their work, properly carry out their obligations, or otherwise meet anyone's needs, all of which might have a material adverse effect on the Etalonium Ecosystem.

7.11. Failure of the Buyer to map a public key to the Buyer's account may result in third parties being unable to recognize the Buyer's Token balance on the Ethereum blockchain.

7.12. If the Buyer sends ETH to the distribution contract from an exchange or an account that the Buyer does not control, pursuant to the distribution contract, the Tokens will be allocated to the account that has sent ETH; therefore, the Buyer may never receive or be able to recover the Buyer's Tokens. Furthermore, if the Buyer chooses to maintain or hold the Tokens through a cryptocurrency exchange or other third party, the Buyer's Tokens may be stolen or lost. By using the distribution contract and/or by purchasing the Tokens, the Buyer acknowledges and agrees that the Buyer sends ETH to the distribution contract through an exchange account and/or holds Tokens on a cryptocurrency exchange or with another third party at the Buyer's own and sole risk.

7.13. Etalonium project and its Ecosystem may undergo significant changes over time. Although the Company intends for the Etalonium Ecosystem to have the features and specifications set forth in the White Paper, the Company may make changes to such features and specifications for any number of reasons, any of which may mean that the Etalonium Ecosystem project as a whole does not meet the Buyer's expectations.

7.14. The industry in which the Company operates is new, and may be subject to heightened oversight and scrutiny, including investigations or enforcement actions. There can be no assurance that governmental authorities will not examine the operations of the Company and/or pursue enforcement actions against the Company. Such governmental activities may or may not be the result of targeting the Company in particular. All of this may subject the Company to judgments, settlements, fines or penalties, or cause the Company to restructure its operations and activities or to cease offering certain products or services, all of which could harm the Company's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the Tokens and/or the development of the Etalonium Ecosystem and project as a whole.

7.15. The regulatory status of cryptographic tokens, digital assets and blockchain technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether governmental authorities will regulate such technologies. It is likewise difficult to predict how or whether any governmental authority may make changes to existing laws, regulations and/or rules that will affect cryptographic tokens, digital assets, blockchain technology and its applications. Such changes could negatively impact the Tokens in various ways, including,

for example, through a determination that Tokens are regulated financial instruments that require registration. The Company may cease the distribution of the Tokens or cease operations in a jurisdiction in the event that governmental actions make it unlawful or commercially undesirable to continue to do so.

SECTION 8: LIMITATION OF LIABILITY

8.1. To the fullest extent permitted by applicable law, the Buyer disclaims any right or cause of action against the Company of any kind in any jurisdiction that would give rise to any Damages whatsoever, on the part of the Company. The Company shall not be liable to the Buyer for any type of damages, whether direct, indirect, incidental, special, punitive, consequential or exemplary (including damages for lost profits, goodwill, use or data), even if and notwithstanding the extent to which the Company has been advised of the possibility of such damages. The Buyer agrees not to seek any refund, compensation or reimbursement from the Company, regardless of the reason, and regardless of whether the reason is identified in this Agreement.

8.2. In no circumstances will the aggregate joint liability of the Company, whether in contract, warrant, tort or other theory, for damages of any kind under this Agreement exceed the amount received by the Company from the Buyer.

8.3. The Buyer understands and agrees that the Company shall not be liable and disclaims all liability to the Buyer in connection with any force majeure event, including acts of God, labor disputes or other industrial disturbances, electrical, telecommunications, hardware, software or other utility failures, software or smart contract bugs or weaknesses, earthquakes, storms, or other nature-related events, blockages, embargoes, riots, acts or orders of government, acts of terrorism or war, technological change, changes in interest rates or other monetary conditions, and, for the avoidance of doubt, changes to any blockchain-related protocol.

8.4. To the fullest extent permitted by applicable law, the Buyer releases the Company from responsibility, liability, claims, demands, and/or damages of every kind and nature, known and unknown (including, but not limited to, claims of negligence), arising out of or related to disputes between Buyer and the acts or omissions of third parties.

SECTION 9: INDEMNIFICATION

9.1. You acknowledge, understand and agree to the following:

(a) To the fullest extent permitted by applicable law the Buyer will indemnify, defend and hold harmless and reimburse the Company from and against any and all actions, proceedings, claims, damages, demands and actions (including without limitation fees and expenses of counsel), incurred by the Company arising from or relating to: (1) the Buyer's purchase or

use of the Tokens; (2) the Buyer's responsibilities or obligations under this Agreement; (3) the Buyer's breach of or violation of this Agreement; (4) any inaccuracy in any representation or warranty of the Buyer; (5) the Buyer's violation of any rights of any other person or entity; and/or (6) any act or omission of the Buyer that is negligent, unlawful or constitutes willful misconduct.

(b) the Company reserves the right to exercise sole control over the defense, at the Buyer's expense, of any claim subject to indemnification under this Section. This indemnity is in addition to, and not in lieu of, any other indemnities set forth in a written agreement between the Buyer and the Company.

SECTION 10: DISPUTE RESOLUTION

10.1. The Buyer and the Company shall cooperate in good faith to resolve any dispute, controversy or claim arising out of, relating to or in connection with this Agreement, including with respect to the formation, applicability, breach, termination, validity or enforceability thereof (hereinafter the "Dispute"). If the Parties are unable to resolve a Dispute within ninety (90) days of notice of such Dispute being received by all Parties, such Dispute shall be finally settled by Binding Arbitration as defined in Section 10.2 below.

10.2. Any Dispute not resolved within 90 days as set forth in Section 10.1 shall be referred to and finally resolved by authorized judicial authority of the Republic of Georgia.

10.3. The governing law of the Agreement shall be as set forth in Section 11.1 herein. The Parties undertake to carry out any award without delay and waive their right to any form of recourse insofar as such waiver can validly be made. Judgment upon the award may be entered by any court having jurisdiction thereof or having jurisdiction over the relevant Party or its assets. The Company and the Buyer will each pay their respective attorneys' fees and expenses.

10.4. Any dispute arising out of or related to this Agreement is personal to the Buyer and the Company and will not be brought as a class arbitration, class action or any other type of representative proceeding. There will be no class arbitration or arbitration in which an individual attempts to resolve a dispute as a representative of another individual or group of individuals. Further, a dispute cannot be brought as a class or other type of representative action, whether within or outside of arbitration, or on behalf of any other individual or group of individuals.

SECTION 11: MISCELLANEOUS

11.1. This Agreement shall be governed in all respects, including as to validity, interpretation and effect, by the laws of the Republic of Georgia without giving effect to its principles or

rules of conflict of laws, to the extent such principles or rules are not mandatorily applicable by statute and would permit or require the application of the laws of another jurisdiction.

11.2. The Buyer shall not assign this Agreement without the prior written consent of the Company. Any assignment or transfer in violation of this Section will be void. The Company may assign this Agreement to an affiliate. Subject to the foregoing, this Agreement, and the rights and obligations of the Parties hereunder, will be binding upon and inure to the benefit of their respective successors, assigns, heirs, executors, administrators and legal representatives.

11.3. This Agreement, as well as the Etalonium Terms and Conditions, Disclaimer and Privacy Policy (if such documents are available on the Etalonium Website), constitutes the entire agreement between the Parties and supersedes all prior or contemporaneous agreements and understandings, both written and oral, between the Parties with respect to the subject matter hereof, including, without limitation, any public or other statements or presentations made by the Company about the Tokens.

11.4.
